

Falcon Project Support

Innovative solutions for facade and building access

FalconLifts is specializing in solutions for properly and economically maintenance of indoor atriums, facades of high-rise buildings, facility management access, etc. With more than 50 years' combined international industry experience, and a track record for innovative thinking, FalconLifts specializes in addressing the access complexity of contemporary buildings, while avoiding architectural compromises.

The company provides a total advisory access service from the design phase to the delivery of the final solution - working on both new buildings and retrofitting access solutions for existing buildings - as well as conducting reviews of established access solutions.

FalconLifts offers an ideal mix of experience, innovation and reliability - with the advantage of being a small and responsible team. Reputation and relationships within the industry are highly valued, and the team works hard to provide excellent value for money for the company's clients.

The FalconLifts team follows a highly methodical process when working on building access solutions. The team members have many years of international experience in the innovation, design, manufacturing, delivery and after sales service of access solutions. This ensures that a total service is provided, including:

- Conceptual design and coordination with our team
- Access solution, options, and recommendations
- Preliminary design and product specifications
- Tender preparation and evaluation
- Manufacturing and project overview
- Installation and after sales service

Project support - how we work

We are pleased to invite you into the world of innovative solutions. Solutions and design, not limited by traditional concepts but empowered by creative thinking, technological skills, and state of art product solutions.

The FALCON SPIDER has been designed to adjust and conform to the most unique challenges, and will suit the most difficult tasks of maintenance work.

FalconLifts helps you to find the ultimate access solution for maintenance of unique buildings. Our highly skilled team will assist you all the way from scratch and idea to final product presentation.

If you would like to discuss how FalconLifts could be of value to your project, please contact

Sales Director Brian Falck Schmidt on +45 40310432 or email brfs@falconlifts.com
